My dear Mrs Tallant:

Spurred on by our little gathering I began looking up <sup>some</sup> family lines, the data of which has been long in "repose" as it was a maternal line & I had been busy with the "men". Enclosing I am sending some items which may be of interest to you. My Howland ancestor was John of the May flower.

The Hooker data is a bit rumpled but I don't after I had tossed it into the waste basket that you might like it.

Thomas is no kin of mine but since so many of my ancestors were sitters of the party he got from Cambridge to found Hartford or closely associated with him I find it interesting to know a bit about their leader.

In examining the Coley data which I had, more closely - I see there is no doubt that

The wife of Joseph Baldwin was a daughter of Samuel  
Cooly. I am also convinced that there was some  
connection between the Samuel Cooly & Benjamin  
Cooly families - a daughter of Samuel & Abigail of  
Socals Cooly Baldwin married Japhet ~~Cox~~  
Chapin of Springfield - you remember Mrs. Mallett a  
Socals - Belvia daughter of Benjamin married a  
Chapin of Springfield.

Also Socals Baldwin - left a melon - is said to have  
died in Springfield when she had relatives -  
I have not yet written to the address from your  
book but will soon do. I fear she may not have  
needed to give me but I can supply a line of Socals  
Cooly Baldwin's descendants to find those who  
It reads "a pleasure to talk about, for they  
the same way" & with the same line to the uneducated  
are not numberous & one is such a bore to the uneducated
